We are currently looking for highly motivated students interested in a summer internship at our Baltimore, Maryland location. This is an excellent opportunity for enrolled chemistry students to gain experience and knowledge of the nanotechnology industry. The Chemistry Intern will assist senior employees on our Product Development team to accomplish Pixelligent’s technical goals, and perform other duties as may be assigned. **This is a full-time, standard 40 hours/week, role.**

**Responsibilities may include:**

- Complete and document projects in a product development environment.
- Perform laboratory chemical processes.
- Produce and record accurate data for research and development projects.
- Follow written procedures, and assist product development team in creating and maintaining written procedures.
- Meet laboratory safety, sample labeling, and housekeeping requirements.
- Assisting or performing analytical routine testing in support of product development.
- Perform physical testing and scientific calculations.

**Qualifications:**

- Candidate must have completed at least two years of studies toward BS/BA degree in Chemistry or related field and must be currently enrolled as an undergraduate student.
- Minimum overall GPA of 3.0 is desired.
- Knowledge of wet chemistry techniques.
- Careful and detail oriented.
- Effective verbal and written communication skills.
- Ability to work efficiently in a team environment.
- Sufficient computer skills (word processing, spreadsheet, graphics)
About Pixelligent

Pixelligent Technologies a producer of PixClear™, is an advanced materials company that delivers next generation materials for demanding applications in solid-state lighting, flat panel displays, and optical components and films. We work closely with leading-edge technology firms and Fortune 500 companies to create world class products with dramatically improved properties.

We are a fast-paced, innovative environment full of smart, committed people who love the work we do and the products we create. We balance life and work, and enjoy ourselves while continuing to build a successful company that is leveraging the next-generation of nanotechnology.

We are conveniently located right off of 95N in the Holabird Business Park in Baltimore, MD. Our location offers onsite parking and easy access to restaurants, amenities and fitness centers. We also offer our employees a competitive salary and ability to choose from a full suite of benefits.

Pixelligent is an equal opportunity employer.
